

## **Please help to support us**

We rely on your generosity and support to continue our work in the rehabilitation and education of these owls. We would therefore like to take this opportunity to ask for your assistance in one of the following ways.

Adoptions and sponsorships are popular for special occasions such as birthdays, Christmas, anniversaries or even as a retirement gift. Schools and groups often like to adopt an owl for their interested group and monitor the progress of the sanctuary.

### **1. Adopt an owl for a year.**

You will receive a certificate and picture of your chosen owl, also an annual Autumn newsletter keeping you up to date with progress and development at the sanctuary, and a years free pass for two adults.

### **2. Corporate sponsorship.**

You will receive a certificate and picture of your chosen owl, also an annual Autumn newsletter keeping you up to date with progress and development at the sanctuary, and a years free pass for two adults. A plaque will be erected in your chosen area of the centre for a year advertising your organisation, business or name. Corporate sponsorship helps to fund important projects such as building of aviaries and hospital or education equipment.

**Turn the page to complete your sponsorship.**

**Yes, I would like to sponsor an owl and support the sanctuary's work:**
